

# MISSOURI BOTANICAL GARDEN

P.O. Box 299 • Saint Louis, Missouri • 63166-0299 • (314) 577-5100 • [www.mobot.org](http://www.mobot.org)

## **DINOQUEST: A TROPICAL TREK THROUGH TIME**

**Guy Darrough**

Guy Darrough is a self-taught and highly accomplished fossil collector, fossil preparation expert and illustrator who has worked in paleontology and related areas for 40 years. He has collected and studied fossils in Canada, Morocco, and many parts of the United States.

His technical and artistic skills in fossil preparation meet the highest museum standards. Specimens from his own exceptional collection are routinely loaned to museums for exhibition and for scientific studies.

Guy's accomplishments include amassing a premiere collection of Missouri fossils, making significant discoveries in Paleontology (including the discovery of a wide variety of Cambrian and lower Ordovician fossil animals previously unknown to paleontologists) and co-authoring in the *Journal of Paleontology*.

### **Lost World Studios**

Headed by Guy Darrough, Lost World Studios has developed the concept of combining lifelike prehistoric animal models with actual living plants and other live creatures. This combination provides a realistic glimpse of the prehistoric world. Over 40 years of active work with fossil materials from around the globe has offered Lost World Studios a special insight into the world of prehistoric animals and their environments.

Lost World Studios is located in Arnold, Mo. Contact Lost World Studios at (636) 282-0970 or [info@lostworldstudios.com](mailto:info@lostworldstudios.com).

The Missouri Botanical Garden's mission is "to discover and share knowledge about plants and their environment in order to preserve and enrich life." Today, 151 years after opening, the Missouri Botanical Garden is a National Historic Landmark and a center for science and conservation, education and horticultural display.
