

# CURRICULUM VITAE

## PORTER PRESCOTT LOWRY II

Born, Salem, Oregon, USA, October 27, 1956.  
US Citizenship; Resident in France. Married, two children.

### PRESENT POSITION

**Curator, and Head of the Africa and Madagascar Department, Missouri Botanical Garden**, P.O. Box 299, St. Louis, Missouri 63166-0299, USA (Tel: 314-577-9453; Fax: 314-577-9596; e-mail: [Pete.Lowry@mobot.org](mailto:Pete.Lowry@mobot.org); url: <http://www.mobot.org/MOBOT/Research/curators/lowry.shtml>). Address in France (permanent posting): Département Systématique et Evolution, Muséum National d'Histoire Naturelle, Case Postale 39, 57 rue Cuvier, 75231 Paris CEDEX 05, France (Tel: +(33) 1-40-79-33-51; Fax: +(33) 1-40-79-34-42; [lowry@mnhn.fr](mailto:lowry@mnhn.fr)).

### ASSOCIATE AND ADJUNCT POSITIONS

*Chercheur Associé*, Muséum National d'Histoire Naturelle, Paris, France (since 1989).  
Honorary Research Associate, Royal Botanic Gardens, Kew, U.K. (since 1999).  
Adjunct Associate Professor, Department of Biology, University of Missouri-St. Louis, USA (since 2003).  
Member of the *Département Systématique et Evolution*, Muséum National d'Histoire Naturelle, Paris, France (since 2006).  
Overseas Research Supervisor, Kunming Institute of Botany, Chinese Academy of Sciences, Kunming (since 2006).  
Member of the *Ecole Doctorale*, Muséum National d'Histoire Naturelle, Paris, France (since 2009).

### PREVIOUS POSITIONS

1986–90 Assistant Curator, Coordinator, Madagascar Research and Conservation Program, Missouri Botanical Garden.  
1990–99 Associate Curator, and Head, Africa and Madagascar Department, Missouri Botanical Garden.

### EDUCATION

1976 University of Illinois, Urbana, Illinois; B.S. in Botany, with Highest Honors and Departmental Distinction.  
1980 University of Illinois, Urbana, Illinois; M.S. in Botany. Thesis advisor: Almut G. Jones.  
1986 Washington University, St. Louis, Missouri; Ph.D. in Biology and Biomedical Sciences (Population Biology). Thesis advisor: Peter H. Raven.

### PROGRAMMATIC AND ADMINISTRATIVE RESPONSIBILITIES

- **Coordinator, MBG's Madagascar Research and Conservation Program** (~140 staff members in Madagascar, 4 based at MBG, 2 in Paris, 1 in Geneva). Main programmatic activities include:
  - Extensive botanical exploration (ca. 125,000 collections made by staff and associates in the past 27 years).
  - Systematic and taxonomic studies (ca. 250 papers published by program staff, students and collaborators).
  - Multi-level training (>70 Malagasy students and professionals trained) and employment opportunities through MBG's in-country program.
  - Collaboration with 5 local counterpart institutions and numerous international organizations.
  - Compilation of a comprehensive database on Malagasy plants and preparation of an on-line [Catalogue of the Vascular Plants of Madagascar](#), integrating threat assessments using IUCN Red List criteria.

- Innovative approaches for applying botanical information to addressing conservation issues, including: GIS analysis of Priority Areas for Plant Conservation; evaluation of patterns of species richness and endemism; inventory of [Madagascar's East Coast Littoral Forests](#); and assessment of the impacts of climate change on Madagascar's flora, testing mitigation measures and developing adaptation strategies.
- Community-based conservation projects at 11 newly established protected areas located at priority sites for plant conservation, each integrating the principles of sustainable natural resource management, ecological restoration, the [Restoration of Natural Capital](#), participatory management and social entrepreneurship.
- Development of botanical expertise for Environmental Impact Assessments and participation in selected EIA studies on a contract basis.
- **Coordinator of MBG's Africa Program** (3 staff members). Main programmatic activities include:
  - Tanzania Botanical Research and Conservation Program, which has trained >25 local botanists, conducted field work in dozens of key sites, carried out a collaborative, multi-institutional CEPF-funded project on Red List assessments of threatened species and identification of priority conservation areas, and is now participating in an analysis of climate change and its implications for conservation in the Tanzania-Kenya borderlands area (R. Gereau, S. Bodine).
  - Research in Southern Africa, primarily on Iridaceae and the Cape flora (participating staff: P. Goldblatt).
  - Systematics of African Orchidaceae (participating staff: T. Stévart).
  - Maintaining and expanding North America's largest and most comprehensive collection and associated data on plants from Africa and Madagascar as a resource for the research community.
- **MBG Liaison based at the Museum National d'Histoire Naturelle in Paris**, coordinating MBG collaborative involvement in research within the *Département Systématique et Evolution* on the floras of Madagascar, New Caledonia and Africa; contributing to MNHN research activities; and facilitating collaboration and visits to Paris by scientists from the U.S., Madagascar, Africa and elsewhere.
- **Coordinator of MBG activities in New Caledonia**, which include botanical inventories of poorly-known sites; description of newly discovered taxa; and taxonomic systematic, biogeographic and evolutionary research on selected groups.
- **Coordinator of MBG's environmental impact assessment and mitigation/offset consulting activities**, which include botanical inventory work and risk of extinction assessments to identify potential impacts (principally from proposed mining projects) and advise on appropriate mitigation and offset actions to ensure no net loss or a net positive impact on biodiversity.

### CURRENT RESEARCH INTERESTS

- **Systematics of Araliaceae** – current research activities include:
  - Floristic treatments in preparation: New Caledonia, Madagascar, Gabon, Indochina.
  - Taxonomic revisions and descriptions of new taxa: *Schefflera sensu lato* (ca. 1100 spp.; with G.M. Plunkett, D. G. Frodin and others), including the newly resurrected and expanded genus *Plerandra* (49 spp.); *Polyscias* (ca. 270 spp.; with G.M. Plunkett); *Meryta* (ca. 40 spp.; with F. Tronchet), etc.
  - Phylogeny: broad relationships within the family (with G.M. Plunkett and others); re-circumscription of *Schefflera sensu lato* (with G.M. Plunkett and D. G. Frodin); inter-specific relationships in *Meryta* (with F. Tronchet and G.M. Plunkett) and *Cussonia* (with B. De Villiers), etc.
  - Historical biogeographic studies, focusing on the SW Pacific and the Afro-Malagasy region (with G.M. Plunkett).
  - Ongoing field exploration (recent trips to Madagascar, New Caledonia, Solomon Islands, Seychelles, Mauritius; upcoming trips planned to Andean South America).
  - Analyses of morphological and anatomical features in a phylogenetic context (with A. O. Oskolski, R. Liu, G.M. Plunkett, B.-E. Van Wyk, P. M. Tilney and others).
  - Risk of extinction assessments, including a measure of “phylogenetic diversity”, to test conservation importance (with G.M. Plunkett).
- **Systematics of other groups within Apiales**, including Myodocarpaceae (with G.M. Plunkett), Pittosporaceae (with C. Gemmill, J. Munzinger and G.M. Plunkett), Apiaceae (with G.M. Plunkett, M. Liu and others) and Melanophyllaceae (with G. E. Schatz).
- **Flora and vegetation of Madagascar** – current activities include:
  - Taxonomic revisions and descriptions of new taxa (numerous groups in many families; see ***Publications in Press or in Review*** and ***Papers in Preparation*** below).

- Implementation of the *[Catalogue of the Vascular Plants of Madagascar](#)* (with P. B. Phillipson, G. E. Schatz, S. Andriambololona and others).
- **Evolution and diversification of the New Caledonian flora**, including Myodocarpaceae (with G.M. Plunkett), Pittosporaceae (with C. Gemmill, J. Munzinger and G.M. Plunkett), Apiaceae (with G.M. Plunkett, M. Liu and others) and Melanophyllaceae (with G. E. Schatz).
- **Application of botanical information to conservation planning and management.**
- **Integration of Ecological Restoration and the principles of [Restoration of Natural Capital \(RNC\)](#) and Carbon Offsets and Carbon Credits** into community-based conservation activities and natural resource management policies, and into programs and activities at botanical gardens (coordinated by Botanic Gardens Conservation International).
- **Environmental impact assessment, mitigation and conservation planning** at selected high biodiversity mine projects (Madagascar, Panama, Guinea Conakry, Indonesia) to ensure that robust, accurate botanical information is incorporated into planning and offsets in order to achieve a Net Positive Impact.

#### CONSULTING EXPERIENCE

- 1989–91 Principal Consultant, Flora and Vegetation Environmental Impact Assessment Study for QIT - Madagascar Minerals Project, Montreal, Quebec, Canada. This study involved a team of seven scientists and was carried out in 3 phases between March, 1989 and January, 1991.
- 1995 Coordinator, Plant Specialist Group, Madagascar Conservation Priority Setting Workshop, United Nations Development Programme (UNDP) and the Global Environment Facility (GEF).
- 1996 Ecological Monitoring Consultant, Kibale National Park Biological Field Station, Uganda. Consultancy for the Consortium for International Development.
- 1998 Principal Consultant, Review of the MIR 1997 Regional Deforestation Study and the Current and Planned QMM Conservation and Rehabilitation Program in the area of Fort-Dauphin (Tolagnaro), Madagascar for the mining company QMM, Montreal, Quebec, Canada.
- 2000 Facilitator, Congolean Forest Eco-region Priority Setting Workshop, Libreville, Gabon (March 29–April 2). This workshop, sponsored by the World Wide Fund for Nature (WWF), involved more than 100 specialist participants.
- 2000–01 Principal Consultant, Re-assessment and Update of Priority Endemic Plant Species At Mandena, Tolagnaro Region, Madagascar for the mining company QMM, Montreal, Quebec, Canada (in collaboration with P. Smith, RBG Kew).
- 2007–10 Coordinator, Identification of Priority Plant Species for a Social and Environmental Impact Assessment Study of the Proposed Petaquilla Mine Site, Panama, for Golder Associates, Inc.
- 2011 Consultant, Development of a Plant Conservation Master Plan for the Minera Panamá S.A. mine project, Panama.
- 2011 Consultant, Development of Recommendations for a Plant Species of Concern Assessment and Management Program for the Weda Bay Nickel Project, Halmahera Island, Indonesia.
- 2011 Coordinator, Plant Biodiversity Database Development and Threat Analysis for the Minera Panamá S.A. mine project, Panama.
- 2011 Consultant, Development of a Biodiversity Strategy, Société Le Nickel (SLN), New Caledonia.
- 2011 Consultant, Flora Biodiversity Management for the Minera Panamá S.A. mine project, Panama.

#### OTHER PROFESSIONAL EXPERIENCE

- 1976–79 Teaching Assistant in Botany (General Botany, Introductory Plant Taxonomy, Field Ecology), University of Illinois.
- 1979 Student Herbarium Assistant, University of Illinois (Spring Semester).
- 1979 Research Assistant, University of Illinois (Spring Semester).
- 1979 Range Technician (Botanist), Bureau of Land Management, Butte District, Butte, Montana (Summer).
- 1980–81 Visiting Lecturer, University of Illinois.
- 1982–84 Teaching Assistant (General Biology, Medicinal Plants), Washington University.
- 1999 Instructor, Programme de Formation en Botanique de Terrain, Limbe Botanic Garden, Cameroon (7–14 November).

### CURRENT COMMITTEES, COUNCILS AND BOARDS

- 1998– Senior Editorial Board, *Oryx: The International Journal of Conservation*.  
 1999– Editorial Board, *Adansonia*.  
 2001– QMM Biodiversity Advisory Committee, QMM, Madagascar (President since 2006).  
 2003– IUCN Madagascar Plant Specialist Group.  
 2007– Editorial Board, *Journal of Systematics and Evolution* (formerly *Acta Phytotaxonomica Sinica*).  
 2007– Board of Directors, *Madagascar Fauna Group*.  
 2008– Editorial Board, *Madagascar Conservation and Development*.  
 2009– Editorial Board, *Plant Ecology and Evolution*.  
 2009– Independent Scientific Consultative Committee, *Ambatovy Mineral S.A., Madagascar*.  
 2010– Editorial Board, *Blumea*.  
 2011– Flora Editorial Committee, Muséum National d'Histoire Naturelle, Paris.

### PAST COMMITTEES, COUNCILS AND BOARDS

- 1983–93 Editorial Committee, Index to Plant Chromosome Numbers.  
 1987–92 Special Committee on Lectotypification, International Association for Plant Taxonomy.  
 1988–98 Scientific Advisory Council, Conservatoire et Jardin Botanique de Mascarin, Réunion Island.  
 1997–98 Editorial Committee, Flora of Taiwan, Vol. 4.  
 2006–07 Scientific Commission, 18<sup>th</sup> AETFAT Congress, Yaoundé, Cameroon.  
 2006–11 Board of Directors, *EDIT (European Distributed Institute of Taxonomy)*.  
 2007–08 Vice-Chair, Apiales VI Symposium Organizing Committee.  
 2009–10 Member, Scientific Advisory Committee, 19<sup>th</sup> AETFAT Congress, Antananarivo, Madagascar.  
 2008–11 Scientific Advisory Group, FORANET Project (Establishment of a Forestry Research Network of ACP Countries), Coordinated by *CIFOR*.  
 2006–11 Conseil Scientifique, *Sud Expert Plantes* project.

### FIELD EXPERIENCE

Plant collecting. More than 7,250 numbers from 28 countries and territories: Australia, Canada, Chile, China, Fiji, France, French Polynesia (Tahiti), Gabon, Hawai`i, Indonesia (West Papua [formerly Irian Jaya], Halmahera, and Java), Madagascar, Mauritius, Mexico, New Caledonia, New Zealand, Norway, Panama, Portugal, Réunion Island, Seychelles, Solomon Islands, South Africa, Taiwan, Tanzania, USA (22 States), Vanuatu, Viet Nam, and Zimbabwe.

Other field activities: Cameroon, Congo Republic, Costa Rica, Equatorial Guinea, Ghana, Ivory Coast, Kenya, São Tomé, South Africa, and Uganda.

### FOREIGN LANGUAGE

French; written, read and spoken fluently.

### PROFESSIONAL MEMBERSHIPS

American Society of Plant Taxonomists; International Association for Plant Taxonomy; Association for the Taxonomic Study of the Flora of Tropical Africa (AETFAT); Society for Conservation Biology; Société Française de Systématique.

### CURRENT GRADUATE STUDENTS AND COMMITTEES

Swanni Alvadaro Romero, Ph.D. Candidate, Université d'Avignon, France. Research subject: Etudes préliminaires dans le cadre du plan de conservation et de restauration de la végétation du Massif d'Ibity, un projet d'aire protégée à Madagascar (committee member).

Xavier Aubriot, Ph.D. candidate, Muséum National d'Histoire Naturelle, Paris, France. Research subject: Radiation évolutive explosive, *key innovations* et notion d'espèce dans le genre *Euphorbia* L. à Madagascar (thesis director; T. Haevermans co-director).

Raymonde Mboma, Ph.D. candidate, Muséum National d'Histoire Naturelle, Paris, France. Research subject: Caractérisation des espèces forestières pour une exploitation durable des ressources forestières en Afrique centrale : le cas des Légumineuses du Gabon (thesis director).

Ly Ngoc Sam, Ph.D. candidate, Muséum National d'Histoire Naturelle, Paris, France. Research subject: Evolution des bananiers sauvages d'Indochine (thesis director; T. Haevermans co-director).

#### PAST GRADUATE STUDENT COMMITTEES

- 1993 Félix Koubouana. Doctorat (= Ph.D.), Université Paris VI. Thesis title: Les forêts de la Vallée du Niari (Congo): études floristiques et structurales.
- 1997 Thierry Pailler. Doctorat (= Ph.D.), Université de la Réunion. Thesis title: L'hétérostylie dans l'archipel des Mascareignes: présence, maintien et évolution.
- 1997 Bénédicte Sirot. Diplôme de Recherches Doctorales (= M.S.), Université Raymond Poincaré, Nancy I. Thesis title: Etude systématique d'un genre de Boraginaceae d'Amérique: *Bourreria*.
- 1999 Sylvie Ratokivalondrahona. Diplôme d'Etudes Approfondies (= M.S.), Université d'Antananarivo, Madagascar. Thesis title: Contribution à l'étude taxonomique du genre endémique *Tina* Roem. & Schultes (Sapindaceae).
- 1999 Jeannie Raharimampionona. Diplôme d'Etudes Approfondies (= M.S.), Université d'Antananarivo, Madagascar. Thesis title: Contribution à l'étude taxonomique du genre *Canarium* Engl. (Burseraceae) à Madagascar.
- 2000 Honoré Tabuna. Doctorat (= Ph.D.), Muséum National d'Histoire Naturelle, Paris, France. Thesis title: Les produits forestier non ligneux alimentaires de l'Afrique centrale sur les marchés français et belges. Situation actuelle et perspectives.
- 2000 Jérôme Munzinger. Doctorat (= Ph.D.), Muséum National d'Histoire Naturelle, Paris, France. Thesis title: Systématique des genres *Hybanthus* et *Agatea* en Nouvelle-Calédonie, implications sur la phylogénie des Violaceae ligneuses tropicales. Rapporteur.
- 2001 Naina Mamisoa Andrianjafy. Diplôme d'Etudes Approfondies (= M.S.), Université d'Antananarivo, Madagascar. Thesis title: Description, distribution, écologie, utilisation et risque d'extinction des espèces de *Rhodolaena* (famille des Sarcolaenaceae: endémique de Madagascar).
- 2001 Fanjambola Yolande Razafindrakoto. Diplôme d'Etudes Approfondies (= M.S.), Université d'Antananarivo, Madagascar. Thesis title: Description, distribution, écologie, utilisation et risque d'extinction de neuf espèces de du genre *Schizolaena* appartenant à une famille endémique de Madagascar: Sarcolaenaceae).
- 2001 Frédéric Tronchet. Diplôme d'Etudes Approfondies (= M.S.), Muséum National d'Histoire Naturelle, Paris, France. Thesis title: Analyse phylogénétique des espèces néo-calédoniennes d'un genre d'Araliaceae du Pacifique: *Meryta* J.R. Forst. & G. Forst.
- 2002 Martin W. Callmander. Doctorat ès Sciences, Université de Neuchâtel, Switzerland. Thesis title: Biogéographie et systématique des Pandanaceae de l'Océan Indien occidental.
- 2003 Bouakhaykhone Svengsuksa. Doctorat (= Ph.D.), Muséum National d'Histoire Naturelle, Paris, France. Thesis title: Reconstitution du couvert végétal et la revalorisation des terrains après la culture sur brûlis dans le district de Muang Fuang, province de Vientiane, R.D.P. Lao. Rapporteur.
- 2003 Cynthia Hong-Wa. Diplôme d'Etudes Approfondies (= M.S.), Université d'Antananarivo, Madagascar. Thesis title: Description, distribution, écologie, utilisations et risques d'extinction des espèces du genre *Leptolaena* Thouars sensu stricto (Sarcolaenaceae, famille endémique de Madagascar).
- 2003 Thomas Haevermans. Doctorat (= Ph.D.), Muséum National d'Histoire Naturelle, Paris, France. Thesis title: Le genre *Euphorbia* L. à Madagascar: Phylogénie et Systématique.
- 2003 Richard Randrianaivo. Diplôme d'Etudes Approfondies (= M.S.), Université d'Antananarivo, Madagascar. Thesis title: Révision synoptique des espèces Malgaches du genre *Mimusops* L. (Sapotaceae).
- 2004 Stefan Ungricht. Doctorat (= Ph.D.), Université Montpellier II. Thesis title: The endemic fig trees of New Caledonia: quantitative assessment of collections for taxonomy, floristics and conservation. Rapporteur.
- 2004 Virginie Raquet. Diplôme d'Etudes Approfondies (= M.S.), Muséum National d'Histoire Naturelle, Paris, France. Thesis title: Phylogénie morphologique des Myodocarpaceae : famille sub-endémique de Nouvelle-Calédonie. Thesis co-director.
- 2005 Ludovic Ngok Banak. Doctorat (= Ph.D.), Université Libre de Bruxelles, Belgium. Thesis title: Etude de la diversité végétale autour des inselbergs et des dalles rocheuses du nord Gabon. Rapporteur.

2005. Thomas Viot. Master, Ecole Polytechnique, Paris. Thesis title: Analysis of the structure and composition of a forest fragment in eastern Madagascar in relation to human disturbance for sustainable management and restoration.
2006. Jérôme Murienne. Doctorat (= Ph.D.), Muséum National d'Histoire Naturelle, Paris, France. Thesis title: Origine de la biodiversité en Nouvelle-Calédonie. Analyse phylogénétique de l'endémisme chez les insectes: Dictyoptères.
2007. Hélène Ralimanana Randriananahary. Doctorat (= Ph.D.), Université d'Antananarivo, Madagascar. Thesis title: Systématique et biogéographie de *Phyllanthus* L. (Phyllanthaceae) de Madagascar. Rapporteur.
2008. Yohan Pillon. Doctorat (= Ph.D.), Université de la Nouvelle-Calédonie. Thesis title: Biodiversité, origine et évolution des Cunoniaceae: implications pour la conservation de la flore de la Nouvelle-Calédonie. Rapporteur.
2008. Vincent Droissart. Doctorat (= Ph.D.), Université Libre de Bruxelles, Belgium. Thesis title: Etude taxonomique et biogéographiques de plantes rares, le cas des Orchidaceae endémiques d'Afrique Centrale Atlantique.
2009. Sven Buerki. Doctorat (= Ph.D.), Université de Neuchâtel, Switzerland. Thesis title: Worldwide biogeography and systematics of Sapindaceae: a molecular and taxonomic survey involving large datasets and novel methodological approaches.
2009. Lucie Lopes-Ferreira. Master 2, Université Pierre et Marie Curie, Paris, France. Thesis title: Taxonomie et phylogénie moléculaire du genre *Xerophyta* à Madagascar. Research co-director.
2010. Joeri Strijk. Doctorat (= Ph.D.), Université de Toulouse, France. Thesis title: Species diversification and differentiation in the Madagascar and Indian Ocean Islands Biodiversity Hotspot. Rapporteur and committee member.
2010. Hélène Collas. Master 1, Université Pierre et Marie Curie, Paris, France. Thesis title: Analyse éco-géographique des caractères morphologiques du genre *Leea* (Vitaceae) à Madagascar. Research director.
2011. Louis Nusbaumer. Doctorat (= Ph.D.), Université de Genève, Switzerland. Thesis title: Species distribution patterns in steep environmental gradients: downscaling of a biogeographical framework (Loky-Manambato region, NE Madagascar). Committee member.
2011. Maël Robert. Master 2, Université de la Réunion, St. Denis, Réunion, France. Thesis title: Trois espèces du genre *Polyscias* (Araliaceae) endémiques de l'île de la Réunion : états des lieux et développement de marqueurs génétiques SNP. Research co-supervisor.
2011. Cédric Soutif. Master 2, Université de la Réunion, St. Denis, Réunion, France. Thesis title: Phylogénie et évolution du clade *Polyscias* sous-genre *Grotenfendia* (Araliaceae) des Mascareignes. Research co-supervisor.
2011. Cyrille Mas. Master 2, Université Paris VII, Paris, France. Thesis title: Le groupe "gracilipes" du genre *Diospyros* L. à Madagascar: étude morphologique, délimitation taxonomique et mise au point nomenclaturale. Research director.
2011. Marc Jeanson. Doctorate (= Ph.D.), Muséum National d'Histoire Naturelle, Paris, France. Thesis title: Systématique de la tribu des Caryoteae (Arecaceae). Thesis co-director.
2011. Gaëlle Auvray. Doctorate (= Ph.D.), Université d'Angers, Angers, France. Thesis title: Les relations phylogénétiques au sein d'un système réticulé : cas particulier des *Cytisus scoparius* L. (Genisteae, Fabaceae) et des espèce hybrides et cultivars apparentés. Rapporteur and committee member.
2011. Romain Nattier. Doctorat (= Ph.D.), Muséum National d'Histoire Naturelle, Paris, France. Thesis title: Endémisme et diversification en Nouvelle-Calédonie: mise en place et testes d'hypothèses chez les insectes Orthoptères et Dictyoptères. Committee member.
2012. Olivier Chauveau. Doctorat (= Ph.D.), Université Paris-Sud 11, Orsay, France. Thesis title: Systématique et évolution des structures florales productrices de lipides au sein des Iridoideae (Iridaceae). Rapporteur and committee member.
2012. Christelle Gonmadje, Doctorat (= Ph.D.), Université Montpellier II, Montpellier, France. Thesis title: Diversité et biogéographie des forêts d'Afrique central atlantique: le cas du massif de Ngovayang (Cameroun). Rapporteur and committee member.
2012. Thomas Anquez, Master 2, Université de Rennes 1, Rennes, France. Thesis title: Etude de la diversité morphologique chez une espèce hyper-variable: *Polyscias dioica* (Araliaceae) par analyses Fourier elliptique. Research co-director.

#### HONOR SOCIETIES

Phi Beta Kappa; Phi Kappa Phi; Sigma Xi (Associate Member).

**PUBLICATIONS**

1. Lowry, P. P., II. 1976. A biosystematic study of two species in the genus *Osmorrhiza* (Umbelliferae). B.S. Thesis, University of Illinois. 122pp.
2. Lowry, P. P., II and A. G. Jones. 1977. Nomenclatural notes on *Osmorrhiza* Rafinesque (Apiaceae) and two proposals for additions to Article 34 of the Code. *Taxon* 26: 567–569.
3. Lowry, P. P., II and A. G. Jones. 1978. Correction of the publication date for the generic name *Osmorrhiza* Rafinesque. *Taxon* 27: 550.
4. Lowry, P. P., II and A. G. Jones. 1979. Biosystematic investigations and taxonomy of *Osmorrhiza* Rafinesque section *Osmorrhiza* (Apiaceae) in North America. *Amer. Midl. Naturalist* 101: 21–27.
5. Lowry, P. P., II. 1980. A biosystematic study and taxonomic revision of *Osmorrhiza* Rafinesque (Apiaceae). M.S. Thesis, University of Illinois. 355pp.
6. Lowry, P. P., II. 1981. A floristic survey of the Bear Trap Canyon, Madison County, Montana, with a discussion of author citations using the connecting words *in* and *ex*. *Phytologia* 49: 81–94.
7. Lowry, P. P., II and A. G. Jones. 1984 (1985). [Systematics of \*Osmorrhiza\* Raf. \(Apiaceae: Apioideae\)](#). *Ann. Missouri Bot. Gard.* 71: 1128–1171.
8. Lowry, P. P., II. 1985. Proposal to conserve 5941 *Osmorrhiza* Raf. against *Uraspermum* Nutt. (Apiaceae). *Taxon* 34: 316–318.
9. Lowry, P. P., II. 1986. A systematic study of three genera of Araliaceae endemic to or centered in New Caledonia: *Delarbrea*, *Myodocarpus*, and *Pseudosciadium*. Ph.D. Thesis, Washington University, St. Louis. 258pp.
10. Lowry, P. P., II, F. G. Davies and P. S. Green. 1986. The distribution and synonymy of *Polyscias cissodendron* (Araliaceae). *Kew Bull.* 41: 804.

#### GRANTS AND CONTRACTS RECEIVED

1978. Sigma Xi Grant-in-Aid of Research. Biosystematic investigations, field observations, and population sampling of *Osmorrhiza* (Apiaceae) in eastern Canada.
1978. Illinois State Academy of Science Research Grant. Chemosystematic studies in *Osmorrhiza* (Apiaceae): leaf flavonoids and soluble seed proteins.
1980. Research Grant, Endangered Species Office, U.S. Fish and Wildlife Service. Detailed field study of the known populations of *Osmorrhiza mexicana* ssp. *bipatriata*.
1984. National Science Foundation Doctoral Dissertation Improvement Grant. Biosystematics of New Caledonian Araliaceae. (with Peter H. Raven).
1985. American Society of Plant Taxonomists Herbarium Travel Award. A taxonomic revision of Hawaiian Araliaceae: a proposal to study material at four major east coast herbaria.
1987. National Geographic Society, Committee for Research and Exploration. Field studies of Araliaceae in Madagascar and the Comoro Islands.
1988. W. Alton Jones Foundation. Core support for the Missouri Botanical Garden's research and conservation program in Madagascar.
1988. Worldwide Fund For Nature Grant. Purchase of microcomputers for a Conservation Data Center in Madagascar.
1988. National Science Foundation. Linnaean plant typification project (with James L. Reveal).
1988. U.S. Agency for International Development (Madagascar Office), Operational Program Grant. An integrated program for rural development, conservation of biological diversity, and field-based training on the Masoala Peninsula, NE Madagascar.
1989. QIT - Fer et Titane, Inc., Montreal, Quebec, Canada. Flora and vegetation study (late flowering season) of the Mandena Mine Site, region of Tolagnaro, Madagascar. Phase 1.
1989. QIT - Fer et Titane, Inc., Montreal, Quebec, Canada. Flora and vegetation study (early flowering season) of the Mandena Mine Site, region of Tolagnaro, Madagascar. Phase 2.
1990. World Wildlife Fund Grant. An integrated program for rural development, conservation of biological diversity, and field-based training on the Masoala Peninsula, NE Madagascar.
1990. World Wildlife Fund Grant. Improvement of teaching curricula and development of a two-year plan for the conservation education section, Parc Botanique et Zoologique de Tsimbazaza, Antananarivo, Madagascar (with Bodo Randrianasolo).
1990. World Wildlife Fund Grant. Production of a Guide to the Trees and Shrubs of southern and southwestern Madagascar (with Peter B. Phillipson and Voara Randrianasolo).
1990. John D. and Catherine T. MacArthur Foundation. Botanical training and inventory work of key protected areas in support of biodiversity conservation in Madagascar.
1990. John D. and Catherine T. MacArthur Foundation. Core Support for Conservation and Environmental Education Activities at the Parc Botanique et Zoologique de Tsimbazaza, Antananarivo, Madagascar (with Voara Randrianasolo).
1990. W. Alton Jones Foundation. Continued core support for the Missouri Botanical Garden's Madagascar Research and Conservation Program.
1990. World Wildlife Fund Grant. Support for two Malagasy participants at the ICSEB-IV Madagascar Conservation Symposium.

1990. QIT - Fer et Titane, Inc., Madagascar Minerals Project, Montreal, Quebec, Canada. Flora and vegetation follow-up study of the Mandena Mine Site, region of Tolagnaro, Madagascar.
1991. World Wide Fund for Nature Grant. Improvement of horticultural practices, Parc de Tsimbazaza, Madagascar (with M. Spargur and V. Randrianasolo).
1991. U.S. National Science Foundation. A conspectus of the vascular plants of Madagascar (with G. E. Schatz).
1991. Liz Claiborne and Art Ortenberg Foundation. Botanical inventory of Ranomafana National Park, Madagascar (with G. E. Schatz).
1991. Liz Claiborne and Art Ortenberg Foundation. Support for graduate training for Armand Randrianasolo, Botany Section, Parc de Tsimbazaza.
1992. U.S. National Science Foundation. Continued support for the Linnaean plant name typification project (with J. L. Reveal and F. R. Barrie).
1992. U.S. Agency for International Development (SAVEM Grant Management Unit, Madagascar). Masoala Peninsula integrated conservation and development project. Phase I (with CARE-Madagascar, DEF and SAFAFI).
1993. Liz Claiborne and Art Ortenberg Foundation. Botanical training in support of conservation activities in Madagascar.
1993. W. Alton Jones Foundation. Continued core support for the Missouri Botanical Garden's Madagascar Research and Conservation Program.
1994. Biodiversity Support Program. Assessment of biodiversity and conservation of east coast Malagasy rain forests (with R. Rabevohitra and G. E. Schatz).
1994. U.S. National Science Foundation. Group dynamics, reproduction success and habitat utilization in chimpanzees and baboons, Gombe Stream, Tanzania (with A. Pusey, C. Packer and others).
1995. U.S. Agency for International Development. Kibale National Park biological field station project, Uganda (with the Consortium for International Development).
1995. John D. and Catherine T. MacArthur Foundation. Botanical training in Madagascar: support for an 18-month intensive field botany course.
1995. John D. and Catherine T. MacArthur Foundation. An integrated botanical training program in Tanzania.
1995. World Bank and Government of the Republic of Congo. Projet d'Appui Technique au Laboratoire de Botanique du Centre d'Etudes sur les Ressources Végétales (CERVE).
1996. Liz Claiborne and Art Ortenberg Foundation. An integrated botanical training program in Tanzania.
1996. U.S. National Science Foundation. Conspectus of the vascular plants of Madagascar – Phase II (final) (with G. E. Schatz).
1996. U.S. Department of Agriculture, Federal Assistance Program. Central Africa herbaria workshop and field survey.
1998. QMM, Montreal, Quebec, Canada. Review of the MIR 1997 regional deforestation study and the current and planned QMM Conservation and Rehabilitation Program in the area of Fort-Dauphin (Tolagnaro), Madagascar.
1998. Golder Associates, Inc. Taxonomic identifications and verifications of plant specimens from the Ambatovy-Analamay area, Madagascar.
1998. Liz Claiborne and Art Ortenberg Foundation. Core support for Missouri Botanical Garden's Madagascar Program.
1999. John D. and Catherine T. MacArthur Foundation. Integrated botanical training activities in Madagascar and Tanzania.
2000. U.S. National Science Foundation. Phylogeny and diversification of Araliales (with G. M. Plunkett).
2000. QMM, Montreal, Quebec, Canada. Flora update study of the littoral forest ecosystem in the Mandena area, region of Fort-Dauphin (Tolagnaro), Madagascar.
2000. John D. and Catherine T. MacArthur Foundation. Application of Botanical Information to Conservation Planning in New Caledonia.
2001. U.S. National Science Foundation. A botanical survey of Madagascar's endangered littoral forest (with G. D. McPherson and G. E. Schatz).
2001. National Geographic Society, Committee for Research and Exploration. Towards a *Flora Antongilensis* (with G. E. Schatz).
2001. Liz Claiborne and Art Ortenberg Foundation. Continued support for Missouri Botanical Garden's Madagascar Research and Conservation Program.
2001. Critical Ecosystem Partnership Fund. Assessment of Priority Areas for Plant Conservation in Madagascar.

2002. Liz Claiborne and Art Ortenberg Foundation. Continued support for Missouri Botanical Garden's Madagascar Research and Conservation Program.
2002. Critical Ecosystem Partnership Fund. Mapping the Vegetation of Madagascar (with P. Smith, Royal Botanic Gardens, Kew).
2003. John D. and Catherine T. MacArthur Foundation. Building National Capacity for Plant Conservation Assessment and Action in Madagascar.
2003. The Andrew W. Mellon Foundation. Types of African Plants (TAP) Initiative. Participation of the Missouri Botanical Garden (2004) (with P. B. Phillipson).
2004. National Geographic Society, Committee for Research and Exploration. Botanical inventory of the Kouakoué massif, an isolated, exceptionally rich mountain area in SE New Caledonia (with J. Munzinger & G. McPherson).
2004. National Geographic Society, Committee for Research and Exploration. Botanical Inventory of the Kalambaritra Massif, Madagascar.
2004. The Andrew W. Mellon Foundation. Catalogue of the Vascular Plants of Madagascar (with P. B. Phillipson and G. E. Schatz).
2005. The Andrew W. Mellon Foundation. African Plants Initiative (API): Digital Images of Malagasy Plants Project (with P. B. Phillipson and J.-N. Labat).
2005. The Andrew W. Mellon Foundation. Catalogue of the Vascular Plants of Madagascar, Year 2 (with P. B. Phillipson and G. E. Schatz).
2005. Conservation International – Madagascar. Repairing Didy Forest: A Call to Action. Assessment of the current status of the Didy Forest following illegal road construction and design of an integrated restoration program to repair the resulting damage (with J. Aronson).
2006. U.S. National Science Foundation. Tackling *Schefflera*: initiating the re-circumscription of the largest genus in Araliaceae (with G. M. Plunkett).
2007. Richard and Rhoda Goldman Fund. Orphan conservation sites in Madagascar: filling key gaps to ensure a comprehensive network of protected areas (with G. E. Schatz).
2007. The Andrew W. Mellon Foundation. Continued support of the Catalogue of the Vascular Plants of Madagascar Project (with P. B. Phillipson and G. E. Schatz).
2007. Golder Associates, Inc. Identification of Priority Plant Species for a Social and Environmental Impact Assessment Study of the Proposed Petaquilla Mine Site, Panama.
2007. John D. and Catherine T. MacArthur Foundation. The Effects of Global Climate Change on the Plants of Madagascar: Detecting Changes, Projecting Impacts, and Developing Responses (with G. E. Schatz).
2007. U.S. National Science Foundation. Vahinala Project: A Catalogue of the Vascular Plants of Madagascar (with G. E. Schatz).
2008. Ambatovy Mine Project. Flora Species Extinction Avoidance Program: Species of Concern Management 2008 (with L. Andriamahefarivo and P. B. Phillipson).
2008. The Andrew W. Mellon Foundation. Continued support of the Catalogue of the Vascular Plants of Madagascar Project (with P. B. Phillipson and G. E. Schatz).
2010. National Geographic Society, Committee for Research and Exploration. Impact assessment of ebony (*Diospyros*) in northeastern Madagascar.
2011. Minera Panamá S.A., Panama City, Panama, Consultancy for the Development of a Conservation Master Plan for the Minera Panamá Project (with P. B. Phillipson).
2011. Hardner & Gullison Associates, LLC, Assistance in providing technical opinions related to the development of a Biodiversity Action Plan for the Cobre Panama Project, being developed by Minera Panama, S.A.
2011. Weda Bay Nickel, Halmahera, Indonesia, Consultancy for the Development of Recommendations for a Plant Species of Concern Assessment and Management Program (with P. B. Phillipson).
2011. Minera Panamá S.A., Panama City, Panama, Plant Biodiversity Database Development and Threat Assessment.
2011. Golder Associates, Calgary, Canada, Plant Inventory and Identification for an Environmental Impact Assessment, Mt. Nimba, Guinea Conakry (with P. B. Phillipson).
2012. Golder Associates, Lyon, France, Comprehensive baseline study of flora for the Mabounié mine site, Gabon (with T. Stévert).
2012. The Andrew W. Mellon Foundation. Madagascar Catalogue Project 2012-2020: Contributions to the Global Strategy for Plant Conservation (with G. E. Schatz, M. W. Callmander and P. B. Phillipson).

2012. Société Le Nickel, Nouméa, New Caledonia, Expertise for the development of a corporate biodiversity strategy (with J. Ekstrom).

### SYMPOSIA AND WORKSHOPS ORGANIZED

- 1990 Conservation in Evolutionary Perspective: Madagascar, a New Arena. Fourth International Congress of Systematic and Evolutionary Biology, College Park, Maryland, July 7.
- 1997 Development of African herbaria. XV AETFAT Congress, Harare, Zimbabwe, February 3 (with B. Huntley).
- 2003 Conservation and Sustainable Use of African Plants. XVII AETFAT Congress, Addis Ababa, Ethiopia, September 21–26 (with P. P. Smith).
- 2005 La Restauration écologique: un élément clé pour le développement durable et pour la conservation de la biodiversité à Madagascar. Workshop, Antananarivo, Madagascar, March 24 (with J. Aronson and S. Andriambololona).
- 2005 Apiales V – The Fifth International Symposium on the Systematics of Apiales. University of Vienna, Austria, July 24–26 (with G. M. Plunkett).
2010. Origin and diversification of the New Caledonian biota. VI Southern Connection Congress, Bariloche, Argentina, February 18 (with U. Swenson).

### TALKS AND INVITED PAPERS

1. Endemism and diversity in the New Caledonian flora. Smithsonian Institution, October 1; New York Botanical Garden, Bronx, New York, October 7; Bailey Hortorium, Cornell University, Ithaca, New York. October 14, 1985.
2. The evolution of endemism in New Caledonia. Bishop Museum, Honolulu, November 12; University of the South Pacific, Suva, Fiji. November 21, 1985.
3. The Missouri Botanical Garden's contract with the National Cancer Institute and botanical research program in Madagascar. Missouri Baptist Hospital, St. Louis, Missouri. June 10, 1987.
4. Botany and phytogeographic history of Madagascar. Jersey Wildlife Preservation Trust, Jersey, Channel Islands. February 12, 1988.
5. Le rôle des jardins botaniques dans l'inventaire et la protection de la flore tropicale: exemple de la flore malgache. Symposium sur les jardins botaniques de demain, Paris. June 2, 1988.
6. Evolutionary patterns in the flora and vegetation of New Caledonia. Symposium on Evolution in Island Archipelagoes: The Emerging Picture. Fourth International Congress of Systematic and Evolutionary Biology, College Park, Maryland. July 6, 1990.
7. Botanical research and conservation in Madagascar. Berry Botanical Garden, Portland, Oregon. August 7, 1990.
8. Do we really know as much as we think about the flora of the Africa-Madagascar region? XV International Botanical Congress, Yokohama, Japan (with Ph. Morat). 1993.
9. Natural and anthropogenic vegetation types in Madagascar. Natural and human-induced change in Madagascar, Field Museum of Natural History, Chicago (with G. E. Schatz). June 3, 1995
10. La végétation naturelle et anthropique de Madagascar. Académie Malgache, Antananarivo, Madagascar. November 16, 1995.
11. Diversity, endemism, and extinction in the flora of New Caledonia. Intl. Symposium on Rare, Threatened, and Endangered Floras of Asia and the Pacific, Academia Sinica, Taipei, Taiwan. May 1, 1996.
12. Madagascar: its origin, people, animals, plants, and the Missouri Botanical Garden's research and conservation program. Missouri Botanical Garden. June 27, 1996.
13. Madagascar: a remarkable flora on the verge of extinction. Academia Sinica, Nankang, Taiwan. September 8, 1998.
14. Evolution of early lineages in Apiales: insights from morphology, wood anatomy and molecular data (with G. M. Plunkett and A. A. Oskolski). XVI Intl. Botanical Congress, St. Louis, Missouri. August 3, 1999.
15. Biogeography and conservation status in Madagascar's endemic plant families (with C. R. Birkinshaw, G. E. Schatz, F. Randriantafika and F. Ratovoson). II Intl. Symposium on the Biogeography of Madagascar, Paris. August 31, 1999.
16. Espèces appartenant aux familles des plantes endémiques de Madagascar: systématique, biogéographie, écologie, et risque d'extinction. Parc Botanique et Zoologique de Tsimbazaza, Antananarivo, Madagascar. December 9, 1999.

17. Endemic plant families of Madagascar: integrating taxonomy and conservation. Botany 2000 (annual meetings of the Botanical Society of America and the American Society of Plant Taxonomists), Portland, Oregon, USA. August 8, 2000.
18. Biogéographie et relations évolutives des Araliaceae Malgaches. 40<sup>th</sup> Anniversary Meeting, Faculty of Science, Univ. of Antananarivo, Madagascar. September 21, 2000.
19. Les produits utiles de la recherche taxonomique moderne. Workshop on the “Flore du Gabon”, Libreville, Gabon. November 15, 2001.
20. Phylogeny of Araliaceae, Part II: inter- and intrageneric relationships (with G. M. Plunkett and J. Wen). 4<sup>th</sup> International Apiales Symposium, Pretoria, South Africa, January 6, 2003.
21. Discovery of a new dioecious genus of Cunoniaceae from New Caledonia (with G. McPherson, P. Sweeney and J. Bradford). Joint South African Assoc. of Botanists and Intl. Soc. Ethnopharmacology Conference, Pretoria, South Africa, January 8, 2003.
22. Rediscovering lost species: the application of botanical data to assessing priority areas for plant conservation (with G. E. Schatz, Sylvie Andriambololona Jeannie Randriampionona). Botanical Research Institute of Texas, Ft. Worth, April 30, 2003.
23. Madagascar, a botanical paradise in peril. “The Last Wild Places and Hotspots of the World” Distinguished Lecturer Series, Botanical Research Institute of Texas and Ft. Worth Botanic Garden, Texas, May 1, 2003.
24. Phylogeny of Araliaceae, Part II: inter- and intrageneric relationships (with G. M. Plunkett and J. Wen). Missouri Botanical Garden, August 18, 2003.
25. Red listing and plant conservation. (with G. E. Schatz, S. Andriambololona and J. Randriampionona). XVII AETFAT Congress, Addis Ababa, Ethiopia, September 23, 2003.
26. Araliaceae in Africa and Madagascar: major taxonomic changes resulting from recent phylogenetic studies (with G. M. Plunkett, and J. Wen). XVII AETFAT Congress, Addis Ababa, Ethiopia, September 25, 2003.
27. Narrow endemism and its bearing on conservation in the floras of Madagascar and New Caledonia (with G. E. Schatz). XVII Intl. Botanical Congress, Vienna, Austria, July 22, 2005.
28. Breaking up is hard to do: a road map to generic realignments in *Polyscias* s. lat. and *Schefflera* s. lat. (Araliaceae)(with G. M. Plunkett). 5<sup>th</sup> Apiales Symposium, Vienna, Austria, July 26, 2005.
29. Collections et observations, données primaires, accessibilité et exploitation: enjeux scientifiques et défis. GBIF France launch meeting, Paris, France, June 27, 2006.
30. The Missouri Botanical Garden’s Madagascar Program: from plant collecting to a multi-dimensional program. New York Botanical Garden, May 21, 2007.
31. Novel ways to present and disseminate taxonomic information: lessons learned from the Missouri Botanical Garden’s Madagascar Program. New York Botanical Garden, May 21, 2007.
32. Can the imperatives of environmental conservation and sustainable economic development be reconciled? Lessons from Madagascar. African Issues Symposium: Food security, environmental sustainability and human health. Kansas State University, Manhattan, Kansas, March 31, 2009.
33. Plant systematics and sustainability: can we really make a difference and how? Plenary lecture, 19<sup>th</sup> AETFAT Congress, Antananarivo, Madagascar, April 26, 2010.
34. Paraphyly, polyphyly and multiple dispersals in Afro-Malagasy *Polyscias* (Araliaceae)(with G. M. Plunkett). 19<sup>th</sup> AETFAT Congress, Antananarivo, Madagascar, April 26, 2010.
35. The essential role of botanical exploration and natural history collections for informing conservation of tropical plants. International Symposium on Botanical Diversity: exploration, understanding and use, National Botanic Garden of Belgium, Meise, September 17, 2010.
36. La flore de Madagascar: une course contre la montre entre la découverte et la perte de la biodiversité. Université de la Réunion, October 19, 2010.
37. Contributions of the Missouri Botanical Garden’s Madagascar Program toward achieving the GSPC 2011–2020 targets (with G. E. Schatz and S. Andriambololona). Global Partnership for Plant Conservation Conference, Missouri Botanical Garden, July 5, 2011.
38. Evolution of the New Caledonian flora: insights from the pantropical family Sapindaceae. International Botanical Congress, Melbourne, Australia, July 29, 2011.
39. New Caledonia’s role as a source area for angiosperm diversification in the Southwest Pacific: evidence from multiple lineages in Apiales. 7<sup>th</sup> International Apiales Symposium, Sydney, Australia, August 1, 2011.

## REVIEWS

Over 150 manuscripts reviewed for the following journals: *Adansonia*; *American Journal of Botany*; *Annales Botanici Fennici*; *Annals of the Missouri Botanical Garden*; *Australian Journal of Botany*; *Australian Systematic Botany*; *Biodiversity and Conservation*; *Botanical Journal of the Linnean Society*; *Botanische Jahrbücher für Systematik, Pflanzengeschichte und Pflanzengeographie*; *Brittonia*; *Canadian Journal of Botany*; *Candollea*; *Conservation Biology*; *Conservation Letters*; *Development in Practice*; *Edinburgh Journal of Botany*; *Fieldiana Botany*; *Kew Bulletin*; *Madagascar Conservation and Development*; *Molecular Ecology*; *Molecular Phylogenetics and Evolution*; *New Zealand Journal of Crop and Horticultural Science*; *Nordic Journal of Botany*; *Novon*; *Oryx*; *PhytoKeys*; *Plant Ecology and Evolution*; *Plant Systematics and Evolution*; *Science*; *South African Journal of Botany*; *Systematic Botany*; *Taxon*; *Tree Genetics and Genomes*; *Trends in Plant Science*.

Over 45 grant proposals reviewed for: U.S. National Science Foundation, National Geographic Society Committee for Research and Exploration, Belgian Fund for Scientific Research, Swiss Commission for Scientific Research, Swiss National Science Foundation, Sigma Xi, American Philosophical Society, Marie Curie Action Programme (EU), etc.

## ABSTRACTS

1. Lowry, P. P., II and D. A. Young. 1979. Water soluble seed proteins and the taxonomy of *Osmorrhiza* (Apiaceae). *Bot. Soc. Amer. Misc. Ser. Publ.* 157: 45.
2. Lowry, P. P., II and A. G. Jones. 1979. Biosystematics and taxonomy of *Osmorrhiza* Rafinesque (Apiaceae: Apioideae). *Bot. Soc. Amer. Misc. Ser. Publ.* 157: 62.
